ROMANIAN REPORTS IN PHYSICS

Volume 57, Number 4, 2005

Online: www.infim.ro/trp

Contents

Foreword (<i>Valentin I. Vlad</i>)	507
--	-----

REVIEW PAPERS

R. F. CASTEN, Simplicity and complexity in nuclear structure	515
W. GELLETTY, Nuclear physics: challenges and opportunities	527

MATHEMATICAL & GENERAL PHYSICS

D. GRECU, ANCA VIȘINESCU, On a special class of the periodic solutions of the nonlinear Schrödinger equation	553
BIJAN SAHA, VICTOR RIKHVITSKY, MIHAI VISINESCU, Bel-Robinson tensor for the Bianchi type I universe	561
A. ISAR, Quantum to classical transition in the Lindblad theory of open quantum systems ...	573
MIHAI GAVAZA, DIDIER SÉBILLEAU, A unitary view of the partition technique based on the scattering theory	585
NICHOLAS IONESCU-PALLAS, VALENTINI VLAD, Kinetic spectra in a spherical cavity ...	601
G. ZET, Gauge theory of gravitation and general relativity	623
SORINEL A. OPRISAN, ANA OPRISAN, Stability criterion for fully synchronized state of periodic networks	649

NUCLEAR PHYSICS & PARTICLE PHYSICS

IOAN-IOVITZ POPESCU, RUDOLF EMIL NISTOR, Sub-quantum medium and fundamental particles	659
M. IVASCU, I. CATA-DANIL, D. BUCURESCU, GH. CATA-DANIL, L. STROE, F. SORAMEL, C. SIGNORINI, A. GUGLIELMETTI, R. BONETTI, Proton radioactivity in light rare-earth deformed nuclei	671
D. S. DELION, A. SANDULESCU, Nuclear deformation and double fine structure in the binary cold fission	693
I. SILIȘTEANU, W. SCHEID, A. O. SILIȘTEANU, Estimates of alpha-decay half-lives of superheavy elements	715
R. A. GHERGHESCU, Sub-barrier fusion reactions for synthesis of $^{298}114$	747
MARGARIT RIZEA, SERBAN MISICU, MICKAEL PETIT, NICOLAE CARJAN, GERARD BARREAU, Calculation of nuclear level density relevant for Thorium-based reactors	757

M. POPESCU, Proton internal structure revealed by pion scattering	795
---	-----

ATOMIC & MOLECULAR PHYSICS

M. C. STROE, A. I. FLORESCU, M. FIFIRIG, F. O. WAFTEU TAMO, V. NGASSAM, O. MOTAPON, I. F. SCHNEIDER, Quantum interferences of super-excited states: application to electron-molecular cation reactive collisions	801
--	-----

CONDENSED MATTER

M. CRISAN, I. GROSU, I. TIFREA, Exciton condensation	829
I. BALTOG, M. BAIBARAC, L. MIHUT, N. PREDA, T. VELULA, S. LEFRANT, Spectroscopic studies on C ₆₀ fullerene solutions in binary solvent mixtures	837

OPTICS & QUANTUM ELECTRONICS

I. URSU, V. LUPEI, Stimulated emission, solid-state quantum electronics and photonics: relation to composition, structure and size	845
V. I. VLAD, A. PETRIS, V. BABIN, E. FAZIO, M. BERTOLOTTI, Polarization evolution of spatial solitons in photorefractive BSO crystals with large optical activity and absorption	873
L.-C. CRASOVAN, D. MIHALACHE, R. ILIEW, C. ETRICH, F. LEDERER, Can solitary waves form in a lithium triborate optical parametric oscillator?	889
F. IOVA, ATH. TRUTIA, V. VASILE, Spectral analysis of the color of some pigments	905
ALEXANDRU POPA, On the classical approximation of the interaction between electrons and very intense laser beam	913
S.-L. TSAO, M. OANE, LIN LI, FL. SCARLAT, F. SCARLAT, C. OPROIU, I. N. MIHAILESCU, Mathematical modeling of three-photon thermal fields in laser- solid interaction	919
GEORGES RASEEV, DOINA BEJAN, Laser matter interaction at gaz-solid interface: electromagnetic fields from electron density	925
D. BÄUERLE, J. D. PEDARNIG, I. VREJOIU, M. PERUZZI, D. G. MATEI, D. BRODOCEANU, M. DINESCU, Laser processing and chemistry: applications in nanopatterning, material synthesis and biotechnology	935

PLASMA PHYSICS

M. VOICULESCU, M. IGNAT, Wind effect on the plasma instabilities operating in the mid-latitude ionospheric E region	953
--	-----

BIOPHYSICS & MEDICAL PHYSICS

ANA-NICOLETA BONDAR, Pathways for retinal deprotonation in bacteriorhodopsin	971
IRINELA CHILIBON, MARTINE WEVERS, JEAN-PIERRE LAFAUT, Ultrasound underwater transducer for extracorporeal shock wave lithotripsy (ESWL)	979

	505
ALEXANDRU GLODEANU, A linear kinetic theory for chemically interacting bio-molecules with hyperlipemic diet and drug administered to living systems	993
S. GRIGORESCU, C. RISTOSCU, G. SOCOL, E. AXENTE, F. FEUGEAS, I. N. MIHAILESCU, Hydroxyapatite pulsed laser deposited thin films behaviour when submitted to biological simulated tests	1003
SORIN J. TALASMAN, A diffusion-reaction system under the influence of a low radio-frequency-field	1011

PHYSICAL METHODS & INSTRUMENTATION

B. CONSTANTINESCU, R. BUGOI, E. OBERLÄNDER-TÂRNOVEANU, K. PÂRVAN, Some considerations on X-ray fluorescence use in museum measurements – the case of medieval silver coins	1021
--	------

ROMANIAN REPORTS IN PHYSICS

Aim and Scope

Romanian Reports in Physics is a journal publishing physics contributions in the fields of:

1. *Mathematical and General Physics.*
2. *Nuclear Physics. Particle Physics.*
3. *Atomic and Molecular Physics.*
4. *Plasma Physics.*
5. *Condensed Matter.*
6. *Optics & Quantum Electronics.*
7. *Biophysics & Medical Physics.*
8. *Physical Methods and Instrumentation.*

Submission is a representation of the fact that the manuscript has not been published previously, nor currently submitted for publication elsewhere. All submissions are assessed by two independent referees.

Types of Contributions

Regular contributions include:

- a) Review or tutorial papers containing either significant results of an extensive research work or relevant developments in top domains of physics: they are normally invited by the Editors but suggestions for topics will be welcomed.
- b) Original papers: containing original and unpublished work of general interest. All manuscripts will be refereed before acceptance.

- c) Short research notes. A forum for fast publication of new and interesting results.

The recommended length for contributions is: max. 20 typed pages (6,500 words) for review papers, max. 10 typed pages (3,300 words) for original papers, and max. 5 typed pages (1,600 words) for short research notes.

The sole or principal author will receive one galley proof, to be returned as soon as possible. Corrections, other than those of setting-up errors, will be charged to the author.

Twenty-five reprints are offered free of charge. No page charges are required.

Proofs and correspondence concerning papers in process of publication should be addressed to the Technical Editor:

Marinela Dumitriu, Margareta Oancea, IFIN-HH, Atomîștilor, no. 111, anuar@ifin.nipne.ro, P.O. Box MG-6, București-Măgurele, RO-077125, România; Tel. 4021-404 2300/3600, 4021-404 2355; Fax 4021-457 4210; E-mail: mdumitriu@yahoo.com

Two copies of the manuscript for referees and a diskette prepared according to the instructions should be submitted to the Technical Editor. The manuscript can be sent to the Technical Editor by e-mail also.

INSTRUCTIONS FOR MANUSCRIPT PREPARATION

Please make sure that the contribution you are intending to submit for publication in *Romanian Reports in Physics* contains two camera-ready paper copies (with figures, captions of figures, tables, etc., included in text) for the referees, and a diskette. The copies shall be an exact reproduction of the diskette file. Please observe the following guidelines for the preparation of your manuscript.

GENERAL SETTINGS

- Margins:** *Top:* 5 cm; *Bottom:* 4.7 cm.
Left: 4 cm; *Right:* 4 cm.
Gutter: 0 cm.
From edge: *Header:* 0 cm; *Footer:* 0 cm.
- Paper size:** A4 (*Width:* 21 cm; *Height:* 29.7 cm).
- Format paragraph:** Indentation: *Left:* 0.9 cm; *Right:* 0 cm.
Alignment: Justified.
Line spacing: Single.
- Columns:** One.
- Page numbers:** Top of page; Outside; Show number on first page: no.
- Fonts:** TIMES NEW ROMAN and SYMBOL (GREEK fonts for formulae and equations).
- Figures:** Insert the figures at their appropriate position within the paper using INSERT/PICTURE/PASTE LINK (*.bmp).
Figures shall not be larger than an A4 page each.
For scanned figures, the depth of colors shall be set at maximum 8 bytes.
Color figures are not accepted.
Figures shall be listed in numerical order.
Figures shall be bottom numbered and centered.
The number of a figure shall be preceded by two white lines – 24 pt.
Figure numbers shall be written using TIMES NEW ROMAN, 9, CENTERED: ‘Fig. [no]. –’.
After the number of a figure, introduce a white line – 12 pt.
Figure captions and numbers shall not be incorporated in the figure.
Captions shall be set below the number of the figure, and centered.
Captions shall be written using TIMES NEW ROMAN, 9.
Introduce a white line after the caption – 12 pt.
Measure units shall be mentioned in brackets, according to SI requirements.
- Tables:** Landscape tables are not accepted.
Tables shall be introduced at their appropriate place in the text.
Table numbers shall be written using TIMES NEW ROMAN, 9, CENTERED.
Table titles shall be written centered, below the number of the table, using TIMES NEW ROMAN, 9, CENTERED.
Introduce a white line after the end of the table – 12 pt.
- Equations:** Equations may be written either with the equation editor or in the text mode, using TIMES NEW ROMAN or/and SYMBOL fonts.
Equations shall be preceded and followed by a white line – 12 pt.
Displayed equations shall be centered.
Equations shall be numbered in parentheses, flush right, using TIMES NEW ROMAN, 11.

References: *Journal articles* – initials and names of authors, separated by comma, title of article, journal title, volume number, page numbers and year.
Books – initials and names of authors, separated by comma, title of book, publisher, place of publication, year, and page numbers.
Edited books – initials and names of authors, separated by comma, title of article, initials and names of editor(s) followed by the mention “Ed.”/“Eds.” written in parentheses, title of book, publisher, place of publication, year, and page numbers. Within the text and at REFERENCES section, reference numbers shall be introduced within square brackets.
References shall be written using TIMES NEW ROMAN, 9, except the author names, which shall be written using SMALL CAPITALS, and the title of books, which shall be written using ITALIC.

GENERAL CONDITIONS

The title of the file corresponding to your article shall consist of 7 letters followed by 2, 6 or 7. This number identifies the version of the WORD for WINDOWS editor used to save the document.

The extension of your file shall be doc (*****.doc).

Articles shall be written on a HD 3.5” diskette MS-DOS formatted at 1.44 Mbytes.

It is safer to duplicate the document if there is space enough on the diskette.

We strongly recommend you to use archives (zip, arj, rar, ...).

Check the diskette for bad sectors and against viruses.

Do not use headers or footnotes.

We strongly recommend you to check the document with TOOLS/SPELLING using US English dictionary.

The whole document shall be a single file, including text, figures, figure captions, tables and table legends, references, acknowledgements, etc., at their appropriate positions.

Scanned papers (text, figures, etc.) are not accepted.

The label of the diskette shall contain the name of the article (restricted to the first 60 characters including spaces), the name of the contacting author, his/her telephone and e-mail address.

The frequent use of superscripts or subscripts within the text of the article is not encouraged.

The author(s) shall be responsible for the quality of the language; accordingly, if you have difficulties, please ask a colleague with a good command of English to check your contribution.

The author is fully responsible for the scientific quality of his/her paper. Any contribution is carefully checked by two independent referees for acceptance.

DETAILS: The general structure of your contribution shall observe the following guidelines:

TITLE: The title of the paper shall be preceded by 4 white lines – 48 pt. Titles shall be written using TIMES NEW ROMAN, 14, BOLD, UPPERCASE, CENTERED.

AUTHORS: The title of the paper shall be preceded by 2 white lines – 24 pt. Author names (initials followed by name and separated by comma) shall be written using TIMES NEW ROMAN, 10, ALL CAPS, CENTERED. For different affiliations use superscript ordered numbers.

AFFILIATIONS: Writer names shall be preceded by a white line – 12 pt.

Affiliations shall start with a superscript number, connecting the name of the author to his/her affiliation. For a single affiliation no superscript number is necessary. Include e-mail addresses, if available. Use TIMES NEW ROMAN, 9, ITALIC, CENTERED.

ABSTRACT: Abstracts shall be preceded by 2 white lines – 24 pt, and written using TIMES NEW ROMAN, 9, JUSTIFIED. It shall start with the word “*Abstract.*” in ITALIC. The maximum number of words per abstract is 50 for reports, 100 for Ph. D. theses, and 200 for review articles.

KEY WORDS: Key words shall be preceded by a white line – 12 pt. They shall be written using TIMES NEW ROMAN, 9, JUSTIFIED. They shall start with “*Key words:*” in ITALIC. The maximum number of key words is 10 for reports, 15 for Ph. D. theses, and 20 for review articles.

SHORT TITLE: Short title shall be preceded by 2 white lines – 24 pt. A short title of maximum 60 characters including blanks is suggested. It shall be written in TIMES NEW ROMAN, 9 pt, CENTERED. Short title shall be followed by 2 white lines – 12 pt.

ARTICLE: Articles shall be written using TIMES NEW ROMAN, 11, JUSTIFIED, single-spaced. Line spacing exceptions are allowed only if subscripts and/or superscripts appear frequently within a paragraph.

The text may be divided into sections numbered by Arabic figures, in the decimal system.

The headings of the first order, second order, third order, etc. shall be on a single line. The first-order headings shall be written using TIMES NEW ROMAN, 14, UPPERCASE, BOLD, and CENTERED. The first-order headings shall be preceded and followed by 2 white lines – 24 pt.

The second-order headings shall be written using TIMES NEW ROMAN, 14, starting with an uppercase letter and followed only by lowercase letters (LOWERCASE), and CENTERED. The second-order headings shall be preceded and followed by a white line – 12 pt.

The third-order headings shall be written using TIMES NEW ROMAN, 10, LOWERCASE, and CENTERED. The third-order headings shall be preceded and followed by a white line – 12 pt.

The fourth-order headings shall be written using TIMES NEW ROMAN, 10, LOWERCASE, and CENTERED. The fourth-order headings shall be preceded and followed by a white line – 12 pt.

All headings shall be aligned CENTERED.

Text after headings shall start with a 9-mm indentation.

Each paragraph shall be indented 9 mm.
